

Overview of the international upstream oil and gas industry

26 November 2012, London, UK

El member £700.00 (£840.00 inc VAT) Non-member £800.00 (£960.00 inc VAT)*

*includes complimentary Affiliate membership to the Energy Institute

New Structure ** Updated Content ** More Interactive Delivery

The upstream oil and gas sector involves the most profitable but riskiest sector of the oil and gas industry. In recent years there have been significant technological breakthroughs (e.g. shale gas fracture stimulation, subsea facilities, seismic quality) and some setbacks (e.g. high profile well blowouts and commercial / fiscal disputes) that have changed the way business is conducted. This course integrates the wide-ranging technical issues with the complex fiscal, financial and risk management issues that now confront the industry. In one day, this course provides an overview of the upstream sector in non-technical terms from technical, commercial and financial perspectives. It is designed for a multi-disciplined audience with varying levels of previous experience in the upstream sector wishing to gain an integrated overview of the key issues and drivers.

Course notes are issued in digital format.

Who should attend?

This course is designed for a multi-disciplined audience with diverse commercial, technical, corporate, operations, planning and trading backgrounds from various sectors of the oil and gas industry. Course content addresses the basic issues and skills relevant to professionals working within companies involved in upstream activities, including: analysts, asset and portfolio planners, bankers, economists, financial administrators, traders, trainee geologists, engineers and their support staff, insurers, lawyers, and risk managers.

Topics covered include:

- Characteristics of oil and gas fields
- Global opportunities for finding new reserves
- Licensing, unitisation and fiscal terms
- Reconnaissance survey techniques
- Seismic techniques to define prospects and reservoir geometries
- Drilling techniques, equipment and well design options
- Deepwater drilling and subsea facilities
- Oil and gas reservoir and reserves characteristics and risks
- Field development options: onshore and offshore facilities
- Optimising reservoir and upstream performance
- Oil and gas production processing requirements
- Project managing field developments and costs
- Pipelines and transportation alternatives
- Environmental, safety and decommissioning issues
- Issues specific to gas fields and natural gas liquids and condensates
- Non-conventional oil sand and bitumen exploitation
- Shale gas and coal-bed methane exploitation

GENERAL INFORMATION

Entry Requirements

Whilst no formal qualifications are required in order to participate in our training courses, it is likely that applicants will have been educated to senior school level.

In addition, applicants should have a reasonable ability to understand spoken and written English. The ability to write in English would be useful but not essential.

Payment: Full payment must be received before a place can be guaranteed. Under UK Excise Regulations, delegates from all countries are required to pay VAT on any event taking place in the UK. Please note that VAT may be liable to amendment. All prices are correct at the time of going to press, but may be subject to change without prior notice.

Acknowledgement of registration: Confirmation of registration and a VAT receipt will be sent to all delegates. Joining instructions will be sent out prior to the start date of the course. If you have not received your acknowledgement seven days prior to the start date of the course, please contact El Oil and Gas Training to confirm your booking.

Language and course materials: All presentations, course materials and supporting documentation will be presented in English. **Audio-visual recording of presentations is strictly forbidden. Course materials cannot be purchased by non-attendees.**

Cancellation: In the event of a delegate cancelling, a refund of the registration fee less a 20% administration charge will be made provided that notice is received in writing at least 28 days before the date of the course. No refunds will be paid after that date. However, course papers, as supplied to attendees, will be provided after the event.

Substitution

If you are unable to attend, a substitute delegate may attend in your place, provided that El Oil and Gas Training is notified in advance.

DATA PROTECTION ACT

The EI will hold your personal data on its computer database. This information may be accessed, retrieved and used by the EI and its associates for normal administrative purposes. If you are based outside the European Economic Area (the 'EEA'), information about you may be transferred outside the EEA. The EI may also periodically send you information on membership, training courses, events, conferences and publications in which you may be interested. If you do not wish to receive such information, please tick this box

The EI would also like to share your personal information with carefully selected third parties in order to provide you with information on other events and benefits that may be of interest to you. Your data may be managed by a third party in the capacity of a list processor only and the data owner will at all times be the EI. If you are happy for your details to be used in this way, please tick this box

UK Entry Visas – Please note that there have been recent changes to the UK Entry Visa application system. Given this, it now takes a minimum of 15 working days/3 weeks, to process any applications. If you wish to attend a course and need a visa, you are urged to apply at least 1 calendar month prior to the start date of the course.
