

Energy Institute Accredited Institutions

The Energy Institute is licensed by The Engineering Council to accredit academic programmes that provide the level of understanding, knowledge and skills to underpin professional competence to help graduates on their journeys to become Chartered Engineers (CEng) or Incorporated Engineers (IEng).

The following lists those programmes that are currently accredited against AHEP4 or for the bespoke accreditation of Energy Institute Accredited programme* or Chartered Energy Manager (CEM).

This replaces the previous MEI accreditation award and is live from January 2026
