Wind Turbine Safety Rules - Support Procedure P1

Company ‘A’ Wind Turbine Safety Rules Procedure
Approval of General Provisions Special Instructions (GP3),
and other Procedures

4th Edition
SUPPORT PROCEDURE P1
Company 'A' Wind Turbine Safety Rules Procedure
Approval of General Provisions Special Instructions (GP3) and other Procedures

4th edition
June 2021
Version 1
The Energy Institute (EI) is the chartered professional membership body for the energy industry, supporting over 23,000 individuals working in or studying energy and 200 energy companies worldwide. The EI provides learning and networking opportunities to support professional development, as well as professional recognition and technical and scientific knowledge resources on energy in all its forms and applications.

The EI’s purpose is to develop and disseminate knowledge, skills and good practice towards a safe, secure and sustainable energy system. In fulfilling this mission, the EI addresses the depth and breadth of the energy sector, from fuels and fuels distribution to health and safety, sustainability and the environment. It also informs policy by providing a platform for debate and scientifically-sound information on energy issues.

The EI is licensed by:
− the Engineering Council to award Chartered, Incorporated and Engineering Technician status, and
− the Society for the Environment to award Chartered Environmentalist status.

It also offers its own Chartered Energy Engineer, Chartered Petroleum Engineer, and Chartered Energy Manager titles.

A registered charity, the EI serves society with independence, professionalism and a wealth of expertise in all energy matters.

This publication has been produced as a result of work carried out within the Technical Team of the EI, funded by the EI’s Technical Partners. The EI’s Technical Work Programme provides industry with cost-effective, value-adding knowledge on key current and future issues affecting those operating in the energy sector, both in the UK and internationally.

FOREWORD

There are many instances in the Company ‘A’ Wind Turbine Safety Rules (WTSR) where the word ‘Approved’ is used.

All support procedures and Management Instructions should be Approved and this may be incorporated into Company ‘A’ Quality Management System. This should be reflected in the Company ‘A’ Support procedure P1.

Specific requirements for Approval are also stated in other Wind Turbine Safety Rules Support Procedures, as follows:

<table>

Wind Turbine Safety Rules Management Instructions

The Authorising Engineer is responsible for the approval of Approved Written Procedures (see WTSR C3). The detailed procedure for those approvals should be defined in a Management Instruction.

This Support Procedure P1 should be followed when Company ‘A’ wishes to formally sanction for use an Approved Procedure such as those indicated in Section 1, below.

Support Procedure P1

Procedure for Approval of General Provisions Special Instructions (Gp3) and Other Procedures

## 1 SCOPE

The Procedures which must be Approved in accordance with this document are as follows:

<table>
<thead>
<tr>
<th>Procedure</th>
<th>WTSR Reference</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Provision 3 – Special Instructions</td>
<td>GP3</td>
</tr>
</tbody>
</table>
2 DEFINITIONS

For the purposes of this Procedure:

2.1 Management Instruction means a procedure for use at an individual Wind Farm Location or series of Wind Farm Locations, that documents additional elements of the Health and Safety Management systems of Company ‘A’ that are to be applied to meet specified requirements of the WTSR.

2.2 The ‘Responsible Manager’ means the Manager, appointed by Company ‘A’, who will have responsibility for the Plant and LV Apparatus whenever the Company ‘A’ Wind Turbine Safety Rules apply to it.
3  APPROVAL PROCEDURE

3.1  Approved Procedures may be headed in the manner detailed in Appendix A, Section 1.

3.2  Section 1 of an Approval of Procedure Form (Appendix A) should be submitted, together with a copy of the procedure requiring approval, to the Company 'A' Health and Safety Manager (or equivalent), or his / her nominee, for independent assessment.

3.3  The Health and Safety Manager (or equivalent), or his/her nominee, should ensure that an independent assessment of the integrity of the procedure is undertaken by an appropriate person. The appropriate person will be known as the Independent Assessor and should be someone who is understood to be competent to carry out such an assessment. A list of Independent Assessors, capable of carrying out the independent assessment, should be held by the Health and Safety Manager (or equivalent).

3.4  The Independent Assessor should consult directly with the Responsible Manager on any points of clarification required to assess the procedure as satisfactory.

3.5  When the procedure has been assessed as satisfactory the Independent Assessor should complete Section 2 of the Approval of Procedure Form (Appendix A) and return the form to the Health and Safety Manager (or equivalent), or his/her nominee.

3.6  When satisfied that the independent assessment is adequate the Health and Safety Manager (or equivalent), or his/her nominee, should then sign Section 2 of the Approval of Procedure Form (Appendix A) before returning it to the Responsible Manager, together with a copy of the associated procedure.

3.7  The Responsible Manager will sign Section 3 of the Approval of Procedure Form (Appendix A) thereby giving the associated procedure a formal approval.

3.8  The Responsible Manager will then issue the procedure as an Approved Procedure for use at the appropriate Wind Farm Location(s) on the appropriate Wind Turbine Generator (WTG) model(s).
1. DETAILS OF PROCEDURE

PROCEDURE No: ________________________________

FOR USE ON/@*: ________________________________ (WTG Model/Wind Farm Location*)

Plant/LV Apparatus: ________________________________

Type of Procedure (GP3 etc): ________________________________

Title of Procedure (where appropriate): ________________________________

*New Procedure/*Supersedes Procedure: ________________________________

2. ASSESSMENT

I have ensured that an assessment of the named procedure has been undertaken and consider it satisfactory for certification as ‘Approved’.

Remarks (if any) ________________________________

Print Name: ________________________________ (Independent Assessor)

Signature: ________________________________

Date: ________________________________

Print Name: ________________________________ (H&S Manager, or equivalent)

Signature: ________________________________

Date: ________________________________
3. APPROVAL AND ISSUE

Approved and Issued by:

Print Name: ________________________________ (Responsible Manager)

Signature: ________________________________

Date of issue: ______________________________

* Delete as applicable.
