Additional topics – Please note that a range of extra topics are covered each month, in addition to those outlined in the features list.

Petroleum Review also produces a number of supplements during the year. Please contact the editorial team for more information regarding content and production schedules.

To ensure time for consideration, proposals for editorial need to be submitted at least two months before the month of issue publication. While it is our intention to adhere to this plan, we reserve the right to change it in the light of new developments.
